

eimü® Mint +

Product description

eimü® Mint Plus is a strongly cooling udder care product containing 35% peppermint oil.

Product information

eimü® Mint Plus ensures rapid, very strong cooling of the udder and is ideal for accompanying the therapy of acute udder inflammation.

eimü® Mint Plus promotes the regeneration of the udder tissue and self-healing.

Directions for use

After milking, apply to the respective udder quarter or the entire udder and massage in.

Repeat the application as required.

Storage cool, dark and frost-protected at +5 to 25° C.

Do not return used product in its original packaging.
